Speaking & Presenting Skills (2-days)

Our unique speaking and presenting skills is probably the best that you will ever experience. It's not just our opinion, but also that of others who have been on this course.

Not only is highly informative, but also very practical and skills based. You will be doing at least two presentations, if not three, over the two days, which will be filmed...Yes, **filmed!**

There's no need to panic and feel nervous, as everyone feels anxious as soon as we say the word "filmed"!

The reason why we do this is so that you can take these recordings back with you and see what you are doing well, what you need to improve upon and how much of a difference there is between your first presentation and your last presentation. You will clearly see the **before and after effect**.

We **guarantee** that you will be a much better speaker and presenter by the end of this course and, if in the extremely remote chance that you're not, then we'll give you your **money back!** That's how much we believe in our abilities as well as yours!

By the end of this highly interactive course, you will be able to:

- Prepare and meet the needs of your audience and give them your key messages with impact, confidence and connection.
- Work on and highly improve your content and delivery
- Relax and control your nerves using a powerful psychological technique that is used by top professional speakers, actors, sports personalities and entertainers
- Deliver your content with dynamism and confidence using the correct vocal techniques and body language
- Keep your audience hooked, engaged and interactive, so that they will listen to every word you say from start to finish
- Effectively use the latest technology and multimedia to deliver your message differently to most other people, so that you stand out from the crowd for the right reasons and be remembered

- Influence and persuade the audience and appropriately deal with any hecklers or difficult questions.

What others have said about these courses:

“Simply the best training I have ever been on. We’ve sent nearly all our staff to go on this course. You will remember and use these techniques forever in life!”

- Aisha Khan, Thomas Miller
